BACKGROUND INFORMATION: A special permit was approved in 1973 for the development of Phase I of Point West Plaza Shopping Center. Since that time, Phases I and II have been completed with the exception of the subject site. The development of this project will complete the Master Plan for this shopping complex. Parking for the proposed structure was provided in previous development of this shopping center and will exceed the required parking.

PROJECT EVALUATION: Staff has the following comments regarding this project:

- A. The subject site is a vacant 1/2 acre lot which is designated for commercial/offices on the General Plan and Point West PUD on the 1965 Industrial Park Community Plan. The site is zoned Shopping Center-Review (SC-R). The proposed retail development would be compatible with the surrounding land uses and objectives of the applicable Community Plan.

- B. The applicant's plans indicate that the design and materials of the proposed structure are compatible with the existing buildings.

In addition, since the structure is proposed for retail use, it is anticipated that individual shops will require signage. To ensure that the overall effect of these signs will comply with the Point West Development Guidelines and will also be compatible to the project design, a sign program shall be submitted to the staff for review and approval.

- C. The applicant's plan indicates that landscaping will be provided on the site. In an effort to ensure proper shading of the site and to allow for review of the landscaping plans, it is recommended that the landscaping plans be submitted to staff for review and approval prior to issuance of building permits.
- D. The plans have been reviewed by City Traffic Engineering, Building Inspection, Engineering, and the Point West Architectural Review Committee. They had no comments.

ENVIRONMENTAL REVIEW: The Environmental Coordinator has determined that the proposed project will not have a significant adverse effect on the environment and has filed a Negative Declaration.

STAFF RECOMMENDATION: Staff recommends the Commission take the following actions:

- A. Ratify the Negative Declaration;
- B. Approval of the Special Permit, subject to the conditions and based upon the Findings of Fact which follow;
- C. Approval of the Plan Review.

Conditions-Special Permit

1. A sign program for the proposed structure shall be submitted to staff for review and approval and shall comply with the Point West PUD Guidelines.
2. A detailed landscaping and irrigation plan shall be submitted to staff for review and approval prior to issuance of building permits.

Findings of Fact-Special Permit

1. The project is based on sound principles of land use in that:
  - a) the project site is an area designated for retail development.
  - b) the project is compatible with surrounding land uses which consist of retail stores, banks and restaurants.

2. The project as conditioned is not injurious to the public welfare and safety of surrounding properties in that:

Adequate vehicular access and parking exists in the shopping center.

3. The proposal conforms to the 1974 General Plan and the Point West PUD Schematic Plan in that:

The plans designate the subject site for commercial development.
