Subject: City Signatory Authority for City Property Located Within the Stockton Boulevard Property and Business Improvement District (PBID)

Location/Council District:

The Stockton Boulevard PBID is located in Council District 6 (Attachment "A", Page 4).

Recommendation:

This report recommends that City Council approve the attached resolution designating the Interim City Manager as the signatory authority for all City-owned properties to be included in the Stockton Boulevard PBID.

Presenters: Sini Makasini, Administrative Analyst

Department: Development Services

Division: Public Improvement Financing

Organization No: 4815

Summary:

Stockton Boulevard PBID is in its final year and is up for a 5-year renewal. The Stockton Boulevard Partnership which manages the PBID is proposing a 5 year renewal of the current PBID. The partnership has also proposed to extend the current PBID boundaries to include 260 additional parcels south of the existing boundaries. The City currently owns 10 properties within the proposed Stockton Boulevard PBID. The attached resolution authorizes the Interim City Manager to sign a property owner's petition assessment ballots for all City-owned properties that would be participating in the proposed PBID.

Committee/Commission Action: None

Background Information:

A PBID is a benefit assessment district formed by property owners to fund economic development support services such as identity formulation, market research, and economic development programs within the established boundaries. These efforts are undertaken in coordination with the economic development programs provided by local government.

Districts may also undertake physical improvements within the district boundaries such as entry features, benches, or lighting. These services are concentrated within a district geographic area and are paid for by means of a special assessment on benefited properties.

Districts are proven to work by providing services that improve the overall viability of commercial districts, resulting in higher property values and sales volume. The Stockton Boulevard PBID will be formed pursuant to California's "Property and Business Improvement District Law of 1994".

The Stockton Boulevard PBID will deliver services to properties within the Stockton Boulevard Commercial Corridor. The attached resolution authorizes the Interim City Manager to act with regard to all City-owned properties located within the proposed PBID.

Financial Considerations:

If this PBID is formed, the City of Sacramento will be participating as a property owner in the district. City-owned property will have a total annual assessment of approximately \$3,700. City funds will come from a non-departmental organization.

Environmental Considerations:

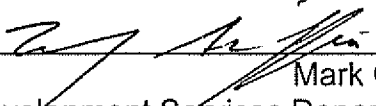

Under California Environmental Quality Act guidelines, authorizing Interim City Manager approval for proposed business improvement districts does not constitute a project and is therefore exempt from review.

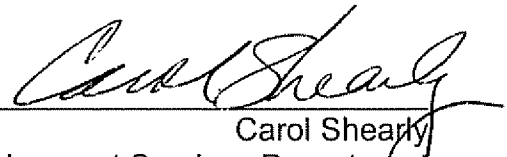

Policy Considerations:

This proposed action authorizes the Interim City Manager to sign with regard to all City properties that will participate in the Stockton Boulevard PBID. This action is consistent with the City's Strategic Plan 3 Year Goal to "expand economic development throughout the City".

Emerging Small Business Development (ESBD):

None. No goods or services are being purchased.
