FOR COUNCIL MEETING OF: December 18, 2001

SUMMARY:

This report recommends that the City Council approve the attached resolution authorizing the City to execute an Authorization to Order through the State of California's CalNet contract in order to purchase voice and data telecommunications services. Procuring these services under the CalNet contract could result in substantial savings per year in comparison to the costs for the current service programs, dependent upon which services the City procures. This CalNet contract was competitively bid under the California Contracts Code and therefore allows for all public agencies, which accept the Terms and Conditions, to procure services through this contract. At this time the City anticipates purchasing services for the City's T1 leased lines, Direct Inward Dial (DID) service, and usage service (local, zone 3, and service area toll) through the CalNet contract.
