Honorable Members in Session:

SUBJECT: Amendments to the City's Preferential Parking Ordinance

SUMMARY

This report recommends amendments to the City's Preferential Parking Ordinance to provide permit parking for property owners and to permit minor changes in Preferential Parking regulations without going through the entire designation process.

BACKGROUND INFORMATION

The current Preferential Parking Ordinance does not provide permit parking for non-resident owners of properties in Preferential Parking areas. Property owners occasionally need to park their vehicles on the street in such areas in order to service their properties. The attached Ordinance provides for "Property Owner Permits" for that purpose. Additionally, it provides for owners to obtain temporary permits for vehicles of commercial enterprises servicing such properties located in Preferential Parking areas (Example: Plumber, electrician, roofers, painters, etc).

The attached Ordinance also enables the City to make minor modifications to parking regulations in a designated Preferential Parking area without repeating the whole process of petitions, surveys and hearings. The amendment provides for such modification to be made by a Resolution of the City Council based on staff recommendation.

FINANCIAL DATA

The amendments of the attached Ordinance will not cause a financial impact.

RECOMMENDATION

It is recommended that the attached Ordinance amending the City's Preferential Parking Ordinance, as shown herein, be adopted.
