Description/Analysis

Issue: Non-residents, such as patrons of local businesses, often park along 56th Street making it difficult for residents and their guests to park near their homes.

Policy Considerations: This recommendation is consistent with the City's strategic plan and the goal of the City Council to achieve sustainability and enhance livability.

Environmental Considerations:

California Environmental Quality Act (CEQA): The current proposal involves restrictions to parking. The proposal is not a "project" in accordance with Section 15378 of the California Environmental Quality Act Guidelines. The proposal does not have a potential for resulting in either direct or indirect physical changes in the environment. Therefore, as determined by the City's Environmental Services Planning Manager, no environmental review is necessary.

Sustainability Considerations: This action supports the City of Sacramento's sustainability goals to improve and optimize the transportation infrastructure.

Other: None

Commission/Committee Action: None

Rationale for Recommendation: Parking on 56th Street, from H Street to the H/J Street Alley, is currently unregulated and often occupied by non-residents, such as patrons of local businesses. Annexing the proposed portion of 56th Street into the Sutter Hospital Residential Permit Parking Area (A) and regulating parking with "Two Hour Parking, Except with Permit," will allow residents and their guests to park near their homes.

In response to residents' request, a parking occupancy study was conducted between December 1st and December 3rd, 2009, during 8:00 a.m. to 4:00 p.m. It was determined that the number of parking spaces occupied by non-residents (77%), such as patrons of local businesses, was sufficient enough to adversely impact the residents of that area. A letter outlining the proposed regulations and soliciting comments was sent to the residents that would be impacted by the changes. Of the 34 residents who live in the impacted area, 19 (56%) responded. 18 (95%) of the respondents voted in favor of the annexation and one (5%) voted against.

Financial Considerations: The cost to implement the recommended parking regulation is estimated to be \$1,722. Funds are available in the Parking Services Division operating budget (Fund 1001).

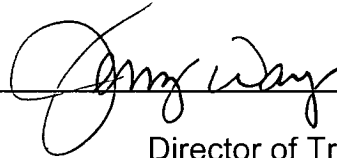

Emerging Small Business Development (ESBD): Any goods or services will be purchased in accordance with established City policy.
