Correspondence

Meeting of November 4, 2010

a. Correspondence

1. None at this time

b. eComment

1. See attached.

Agenda Item		Support	Oppose	None	Total
4. Estimated Time: 30 minutes Appeal: AT & T Odd Fellows Cemetery Monopine (Noticed on 10-4-10)		1	1	0	2
Steve Belzer steve@belzercarrlaw.com 4531 Capri Way District 4 Sacramento CA	Regarding items 4 and 5 - I support the application for a cell site at Odd Fellows and oppose the one at the Balshor site. These should be co-located on the monopine in the cemetery.				Support 11/4/2010 
Nancy Yilk optimumhealthonline@comcast.net 3220 Riverside Blvd District 4 Sacramento ca	I am a local business owner in the Land Park area for the last 16 years. I oppose to the increasing of the tower in height to accomodate more than one cell tower. I get that we will indeed see the increase of cell towers to met the needs of data and cell service, however keeping in light the risk of having abnormal sized towers is not in the interest of residents or land use. This site may met ATT's needs but does not TMobiles and unfairly rewards one site to the other at 2616 Riverside.				Oppose 11/4/2010 

Agenda Item		Support	Oppose	None	Total
5. Estimated Time: 30 minutes T-Mobile Riverside Boulevard Monopine (P07-153) (Noticed on 10-4-10)		1	0	2	3
Sandy Patterson District 4 Sacramento CA	I would like to voice my support of the proposed T-Mobile Cellular Tower at the Balshor Florist location at 2661 Riverside Blvd. I have read all the information contained in the agenda packet and do not think the tower would detract from the environment in any way. It blends in quite nicely and would provide the much-needed reception in that area. If we can support our local businesses without it being detrimental, then by all means we should. Thank you for your consideration.				Support 11/1/2010 
Nancy Yilk optimumhealthonline@comcast.net 3220 Riverside Blvd District 4 Sacramento ca	I am in favor of the construction of TMOilbes site here it meets their coverage better, in is a small less offensive monopole, the process or application and the Balshors handling with the neighborhood has been an example to model on how we as a community should act with each other in assess objection and developpe cooperation. This site should be approved and the permit at Oddfellows should be reduced in height. As a local business owner I have heard of no objections to the Balshor site.				None 11/4/2010 
Steve Belzer steve@belzercarrlaw.com 4531 Capri Way District 4 Sacramento CA	Oppose the monopine at the Balsor site. See my comment to item 4. There should be co-location at the Odd Fellows site.				None 11/4/2010 

Agenda Item		Support	Oppose	None	Total
8. Estimated Time: 30 minutes Supplemental Agreement: Reintroduction of Vehicular Traffic on K Street		1	0	0	1
Reed Geisreiter	As owner of 916 K Street, we are completely in support of the cars on K Street project.				Support

Mind if We Ruin Your Neighborhood?

Cell Tower Proposal Appealed by Local Neighborhood Group

Appeal to be heard at council within the next 15 days

Dear Neighbors, We are asking for your help and support now to get the proposed tower moved to a commercially zoned property. As proposed, the project will set a precedent detrimental to all residentially zoned properties, and here, the tower will lower property values and render some homes unsaleable depending on proximity and visibility. This tower will be an uninviting marquee at a popular intersection and discourage new investment in the neighborhood. The Land Park Community Association recommended it here instead of on Riverside Blvd; another example of how wealthy homeowners make sure their own neighborhood is protected. We are more than just sandbags on the front line of land use battles. We support new facilities but not on residentially zoned property. The tower could easily be built in the commercial zone on 5th Street well away from residential uses, but some city decision-makers have indicated support and AT&T is exploiting the rift in the neighborhoods. There are a lot of consultants and politicians now monitoring this project; will it be built as recommended by city staff?

There is an older monopine hosting many carriers nearby in West Sacramento at the intersection of South River Road and Linden Road by the river. Fake tree cell towers were designed for rural highway use but look horrible from closer distances, go see for yourself. There is no guarantee that over time our new monopine will look any different than the one in West Sacramento.

Here is a concept of the proposed tower for Odd Fellows Cemetery. Note how close it is to Muir Way and residents and how it dominates the intersection. If you do not like the telephone poles there you will not like the monopine. It will NOT blend in with nearby trees.

Our message to City Council:

- Reject the project.
- Consider alternate sites in the commercial areas.
- Hold applicant to reasonable EMF levels shown on their application.
- Review existing policies to reduce the growing cell tower problem.

Block Captains Are Needed

Attend the City Council Meeting

City Council hears appeal on
Thursday, November 4, 2010, 5pm.
Please talk to Dan or Luree by
6:00pm for more info.

We need block captains to arrange a meeting for us and your nearby neighbors. We can come to your block and make a brief presentation and hope that after a discussion you will agree the tower location is wrong and you will attend the City Council. Appeal night, tentatively scheduled for late September or early October, has not been determined yet. Please call Dan Hood at 444-9798 or Luree Stetson at 447-3803 if you can volunteer or would like more information. If you can't attend any of the meetings, please consider sending an email objecting to the project to the City Planner, Antonio Ablog at aablog@cityofsacramento.org citing planning commission item P10-001 and please cc us at r.dan.hood@gmail.com.
