Sacramento City Planning Commission  
City Hall,  
Sacramento, Calif.

Dear Sirs:

California Garden Clubs, Inc. and Sacramento River Valley District Garden Clubs wish to express commendation to the Architectural Advisory Committee on their recent rejection of billboards on the newly landscaped 29th & 30th street freeway and hope they will continue to protect all freeway routes throughout our city. Commendation again is due on their consideration of signs as to the size, etc. throughout the downtown business section. Sacramento has a wonderful opportunity to control billboard clutter and we must take advantage of this, if we are to have a beautiful city.

Would also appreciate help on the proposed Sacramento County Planning ordinance regarding scenic routes through Sacramento County and entering our city.

We are following AB--582 which would clarify the state and county situation on billboard permits and would ask your support.

Thank you.
