Description/Analysis

Issue: Non-residents, such as commuters and patrons of local businesses, often park along the 2500 block of 14th Street making it difficult for residents and their guests to park near their homes.

Policy Considerations: This recommendation is consistent with the City's strategic plan and the goal of the City Council to achieve sustainability and enhance livability.

Environmental Considerations:

California Environmental Quality Act (CEQA): This project is exempt from the provisions of the California Environmental Quality Act (CEQA) under Class 1, Section 15301 (c) and Class 11, Section 15311 (a) of the CEQA guidelines. Projects exempted under Class 1, Section 15301 (c), consist of the operation, repair or minor alterations of existing highways, streets, sidewalks, gutters, bicycle and pedestrian trails and similar facilities involving negligible or no

expansion of use. Projects exempted under Class 11, Section 15311 (a), consist of the construction or replacement of minor structures accessory to existing commercial, industrial or institutional facilities, including but not limited to on-premise signs.

Sustainability Considerations: This action supports the City of Sacramento's sustainability goals to improve and optimize the transportation infrastructure.

Other: None

Commission/Committee Action: None

Rationale for Recommendation: Parking on the 2500 block of 14th Street, is currently unregulated and often occupied by non-residents, such as commuters and patrons of local businesses. Annexing the proposed section 14th Street into the Riverside Residential Permit Parking Area (G), and regulating parking with "No Parking Except with Permit," will allow residents and their guests to park near their homes.

In response to resident requests, a parking occupancy study was conducted between April 28th and April 30th, during 8:00 a.m. to 4:00 p.m. It was determined that the number of parking spaces occupied by non-residents (82%) was sufficient enough to adversely impact the residents of those areas. A letter outlining the proposed regulations and soliciting comments was sent to the residents that would be impacted by the changes. Of the 9 residents who live in the impacted area, 6 (67%) responded: 5 (83%) of the respondents voted in favor of the annexation and one (17%) voted against.

Financial Considerations: The cost to implement the recommended parking regulation is estimated to be \$781.00. Funds are available in the Parking Services Division operating budget (Fund 1001).

Emerging Small Business Development (ESBD): Any goods or services will be purchased in accordance with established City policy.
