Attachment 01 – Description/Analysis

Issue: Recreation staff seeks to inform the Parks and Recreation Commission about the Department's Community Center and Hot Spot programming. The Department operates 10 community centers and clubhouses and has an additional six centers leased to non-profit organizations. Five community centers are fully programmed, providing a wide range of services and activities for young children through older adults. They are Oak Park Community Center, George Sim Community Center, Sam & Bonnie Pannell Community Center, South Natomas Community Center and the Joe Mims Jr./Hagginwood Community Center. Additionally, the Department has just resumed operation of Southside Clubhouse and will be implementing programs at that location soon. The community centers provide a wide range of services and activities such as facility rentals; recreation classes; children, teen, and older adult programming; family activities; and special events. Services and activities are provided directly through the Department, as well as in partnership with other organizations.

The City of Sacramento Department of Youth, Parks, & Community Enrichment continues to provide young adults an opportunity to participate in the Hot Spot program. The Hot Spot program allows youth 13-19 years old the opportunity to be a part of a safe and supervised program on Friday nights. Each of the program sites offers a variety of activities that may include basketball, volleyball, break dancing, game room access, movies, field trips, citywide tournaments, snacks and more.

The original Hot Spot program began at the George Sim Community Center in Council District 6 in the Fall of 2011. Through Measure U funding, the Department provides Hot Spot programs at six locations throughout the city; George Sim Community Center, Oak Park Community Center, Sam & Bonnie Pannell Community Center, Rio Tierra Jr. High School, Grant West High School, and the School of Engineering and Science. There are currently 765 teens registered in Hot Spot programs.

Policy Considerations: The Community Centers and Hot Spot programs meet the Department's mission to empower our youth, strengthen neighborhoods, and provide life-enriching programs for a beautiful, livable community.
