Honorable Members in Session:

**SUBJECT: CONCEPTUAL APPROVAL OF NORTH AREA GROUNDWATER MANAGEMENT
AUTHORITY AND DRAFT JOINT POWERS AGREEMENT**

LOCATION AND COUNCIL DISTRICT: City-wide (All Council Districts)

RECOMMENDATION:

Staff recommends that the City Council approve in concept the draft joint powers agreement which would create the Sacramento North Area Groundwater Management Authority.

CONTACT PERSON: Gary A. Reents, Engineering Services Manager

FOR COUNCIL MEETING OF: April 21, 1998

SUMMARY

As part of the ongoing Water Forum process, a groundwater management element has been developed. Although the Water Forum Agreement is not yet final, the interested parties agree that creation of a North Area Groundwater Management Authority (Authority) can, and should, proceed. A draft joint powers agreement (JPA) to create the Authority has been developed by the affected water purveyors. Upon conceptual approval by the City Council, formal approval of the JPA would be expected this June.

COMMITTEE/COMMISSION ACTION

None.

City Council
March 27, 1998
Conceptual Approval of North Area Groundwater
Management Authority and Draft Joint Powers Agreement

BACKGROUND INFORMATION

The City has been participating in the Water Forum since September 1993. The draft recommendations for the Water Forum Agreement were presented to the City Council and approved by Resolution 97-122, on March 11, 1997.

The draft Water Forum Agreement contains a groundwater element. The provisions of the groundwater element include:

- Protection of the future viability of the groundwater basin
- Recommended sustainable yields for each of the groundwater basin's three areas (North, South and Galt)
- Recognition of both exercised and unexercised water rights
- Conjunctive use as an integral part of groundwater management
- Local control with representation that includes all water purveyors, agricultural interests and self supplied pumpers
- Authority to manage the basin and levy charges
- Establishment of a JPA to form the North Area Groundwater Management Council (now called the Sacramento North Area Groundwater Management Authority)
- Collaboration between the Authority and the Water Forums successors effort

Members of the Water Forum agreed that groundwater management efforts for the north area (City of Sacramento and Sacramento County north of the American River) should proceed ahead of the final Water Forum Agreement. Accordingly, the North Area Groundwater Management Preparatory Committee was formed in August 1997. The Preparatory Committee includes representatives from all of the water purveyors in the north area including the City.

The Preparatory Committee has developed a draft JPA (Attachment A). The parties expected to sign the JPA are the City, the County of Sacramento, and the cities of Citrus Heights and Folsom. The JPA will:

- Create the Sacramento North Area Groundwater Management Authority, a public entity separate from the parties to the JPA
- Delegate to the Authority the powers to manage the groundwater basin consistent with the Water Forum Agreement
- Define the geographic boundaries of the Authority

City Council
March 27, 1998
Conceptual Approval of North Area Groundwater
Management Authority and Draft Joint Powers Agreement

- Establish the membership of the Authority to include:
 - An elected member of the governing body of each water purveyor, which includes the City
 - A member of the Board or designee for each private purveyor
 - One representative of agricultural interests in the North Area
 - One member of self-supplied groundwater users in the North Area
- Require all members of the Authority to be appointed by the signatories to the JPA (purveyors may recommend whom they wish to have appointed). The City Council will appoint representatives from the City, Arcade Water District, Del Paso Manor Water District, Arden Cordova Water Company, Citizens Utilities Company, Natomas Central Mutual Water Company, and self-supplied commercial/industrial users.
- Delineate voting procedures of the Authority
- Define the responsibilities of the Chief Executive Officer, the Treasurer and Controller
- Set out the powers and functions of the Authority

A key provision of the JPA is the ability to impose assessments for administration, regulation of pumping amounts, and possible purchase of surface water.

If the City Council approves formation of the Groundwater Authority in concept, actual approval of the JPA is expected to occur in June after the JPA is formally approved by the other north area water purveyors.

FINANCIAL CONSIDERATIONS

The proposed annual administrative assessment for the City is approximately \$50,000. The groundwater assessment is limited to no more than \$10 per acre-foot during the first five years. Although the City would be subject to the groundwater assessment, one use of the assessment proceeds would be to purchase surface water which could benefit the City.

ENVIRONMENTAL CONSIDERATIONS

The proposed action is approval in concept only. At the time, the City Council is requested to formally approve the JPA, documentation to comply with the California Environmental Quality Act (CEQA) will also be included for certification.

City Council
March 27, 1998
Conceptual Approval of North Area Groundwater
Management Authority and Draft Joint Powers Agreement

POLICY CONSIDERATIONS

The proposed Groundwater Authority is consistent with the draft Water Forum Agreement previously approved by the City Council. The proposed Authority would address the problem of continually declining groundwater levels in the basin north of the American River, upon which the City relies for a significant part of its water supply. The Authority would also provide another potential source for wholesaling water by the City.

MBE/WBE

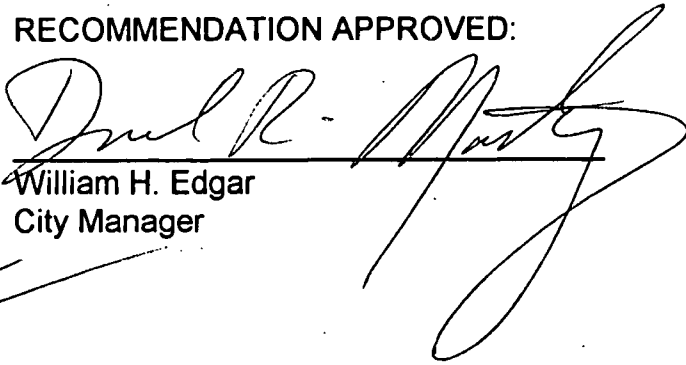

None, since no goods or services are being purchased.

Respectfully submitted,
