

RESOLUTION NO. 2006-704

Adopted by the Sacramento City Council

September 26, 2006

NATIONAL INCIDENT MANAGEMENT SYSTEM COMPLIANCE

BACKGROUND

- A. The President, in Homeland Security Presidential Directive (HSPD) -5, directed the Secretary of Homeland Security to develop and administer a National Incident Management System (NIMS). HSPD-5 requires all Federal departments and agencies to make adoption of the NIMS by local jurisdictions a condition of federal preparedness assistance. In 2004, the Secretary of Homeland Security completed the NIMS.
- B. City emergency management personnel have contributed their expertise to the development of the new National Incident Management System and it is substantially based on the Incident Command System and Standardized Emergency Management System, which are already part of the City's emergency management system.
- C. City personnel are currently complying with the requirements of the National Incident Management System

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:

- Section 1. The National Incident Management System is adopted as the City's all-hazards incident response system.
- Section 2. Use of the National Incident Management System will not alter the use of the Incident Command System or the Standardized Emergency Management System, but rather it will be an additional tool for emergency management.
- Section 3. It is the objective of the City to fully comply with all compliance activities of the National Incident Management System, including training, exercises, and resource management.

Adopted by the City of Sacramento City Council on September 26, 2006 by the following vote:

Ayes: Councilmembers, Cohn, Fong, Hammond, McCarty, Pannell, Sheedy, Tretheway, Waters, and Mayor Fargo.

Noes: None.

Abstain: None.

Absent: None.

Attest:

Shirley Concolino, City Clerk

Mayor, Heather Fargo
