Department: Sacramento Housing and Redevelopment Agency

Summary: This report recommends approval by the City of Sacramento ("City") of the Settlement Agreement and approval by the Redevelopment Agency of the City of Sacramento ("Agency") of the Master Project Agreement and Budget amendment which allocates an initial \$1,000,000 in Sacramento Army Depot tax increment funds and all future net tax increment revenues generated from Depot Park to fund redevelopment projects within the former Army base, which is generally located between Fruitridge Road, Elder Creek Road, Power Inn Road and Florin Perkins Road, for the periods and upon the terms stated in the Master Project Agreement.

RAC Action: This action implements the terms of a litigation settlement agreement previously approved by the City Council acting as the governing body of the Agency, so RAC review is inapplicable.

Committee/Commission Action: This action implements the terms of a litigation settlement agreement previously approved by the City Council acting as the governing body of the Agency, so Commission review is inapplicable.

Background Information: On June 29, 2004, the Sacramento Army Depot Project Area boundaries were expanded as part of the Third Amendment to the Army Depot Redevelopment Plan to include residential neighborhoods and commercial areas to the west of Power Inn Road and south of Elder Creek Road, which was referred to as the "Added Area" as shown in Attachment 1.

Thereafter, U.S. National Leasing, LLC, ("Developer"), which is the lessee of the prior Sacramento Army Depot base property that is now known as Depot Park, filed suit challenging the Agency's determination that the Added Area was blighted, as well as raising other allegations. The Developer and Agency staff negotiated the terms of a settlement agreement, which provides that the Agency will set-aside an initial \$1,000,000 in Sacramento Army Depot Project Area tax increment revenues and all future net tax increment revenues generated by Depot Park to fund improvements to Depot Park. The Agency approved the settlement agreement on January 10, 2006. This action would provide for the approval of the settlement agreement by the City of Sacramento.

Staff is recommending that the Agency approve the Master Project Agreement, which sets aside funds for redevelopment projects at Depot Park defines the process for funding and which amends the Budget in accordance with the Master Project Agreement. The Developer is required to submit the scope, plans and budget for each project to be funded by the Agency. Agency funding can only be used for capital improvement projects that are in compliance with the Sacramento Army Depot Redevelopment Plan and the Community Redevelopment Law, the amount of funding would be limited to what is necessary for the economic feasibility of the project, and subsequent Agency approval would be required for each project.

If the initial and each annual allocation are not encumbered for one or more projects within three years from the date of such allocation, then those funds would become available for reprogramming to fund other improvements within the Sacramento Army Depot Project Area. The Developer is not limited to the funding set aside for the Master Project Agreement but would also be eligible for receipt of additional Project Area funding for Depot Park projects in the same manner as any other developer's project, which means that the project would compete with all other projects.

Financial Considerations: Staff recommends budgeting \$1,000,000 from the Sacramento Army Depot Redevelopment Area Tax Increment Development Assistance fund to the Depot Park Project Fund. Annually, the Agency Budget would allocate to the Depot Park Project Fund the net tax increment revenues generated from Depot Park in accordance with the terms of the Settlement Agreement and the Master Project Agreement.

Environmental Considerations: The proposed action does not constitute a project subject to environmental review under the California Environmental Quality Act (CEQA) per CEQA Guidelines Section 15378(b)(4), which exempts government financing mechanisms that do not involve a commitment to any specific project. NEPA does not apply.

Policy Considerations: The proposed action is consistent with the community development goals in the Sacramento Army Depot Redevelopment Plan and the Implementation Plan, and the City's Strategic Plan goal to promote and support economic vitality. The proposed action supports the Guiding Principle of that goal which states that City programs should support the development and success of new and existing targeted businesses of all sizes within the City.

M/WBE Considerations: The items discussed in this report have no M/WBE impact; therefore, M/WBE considerations do not apply.

ANNE M. MOORE
Executive Director
