Description/Analysis

Issue: Methodist Hospital of Sacramento (MHS) has identified a need to enhance security in the area encompassed by Highway 99, Consumnes River Boulevard, Center Parkway, Arroyo Vista Drive, Grandstaff Drive, Valley High Drive, and Wyndham Drive. Since 2009, MHS has experienced an increase in "disruptive behavior" incidents. The Emergency Department is also contending with a large increase in disturbances, many of which are related to the increase in mentally ill subjects that now frequent the emergency room and hospital area. Property crimes, traffic issues, and nuisance issues in general are also of concern. As a result, MHS has requested to work in

partnership with the Sacramento Police Department to implement a Neighborhood Policing Program.

Police Officers assigned to this detail would provide neighborhood policing services that include responding to disturbances and emergency calls, addressing crime and nuisance issues using the problem solving philosophy, pertinent safety training, ongoing Crime Prevention Through Environmental Design (CPTED) reviews, and timely investigative follow up.

Policy Considerations: Approving the acceptance of grant funding for Neighborhood Policing Services is consistent with the action taken by the City Council with regards to the Kaiser Grant (Resolution #93-714) and with the City's ongoing commitment to the provision of safe working and living environments. In addition, City Council Resolution #2010-388 requires City Council approval to accept grant funding, establish a grant project, and appropriate funding when the grant award is in excess of \$100,000.

Environmental Considerations:

California Environmental Quality Act (CEQA): This action is not subject to the California Environmental Quality Act (CEQA) because it does not constitute a "project" as defined in section 15378 of the CEQA Guidelines, and is otherwise exempt pursuant to section 15061(b)(3) (no significant effect on the environment) of the CEQA Guidelines.

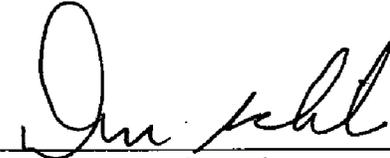

Sustainability Considerations: There are no sustainability considerations associated with this report.

Commission/Committee Action: Not Applicable.

Rationale for Recommendation: This grant for Neighborhood Policing services will enhance the Police Department's ability to provide effective public safety and security by physically assigning Police Officers to provide law enforcement services with an emphasis on community policing and problem solving. In doing so, these Police Officers will be able to identify, assess, and respond to crime and nuisance issues impacting the campus and immediate area. These Officers will be able to provide a direct connection between the hospital and immediate area and the full capabilities of the Police Department's specialty units in responding to and investigating crimes that occur.

Financial Considerations: The salary and benefits associated with the two (2) Police Officer FTE positions will be fully funded by Methodist Hospital of Sacramento (Catholic Healthcare West) for one year with the option to extend the grant each year. If funding is eliminated or reduced, the positions will be inactivated. This grant does not require a match and will not impact the General Fund.

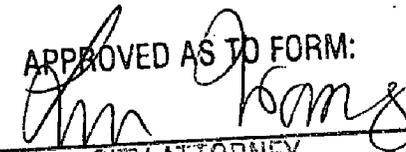

Emerging Small Business Development (ESBD): Not applicable.

Attachment 1**BACKGROUND**

The Sacramento Police Department (SPD) has assigned full-time Police Officers to serve as Neighborhood Police Officers for Kaiser Hospital and the immediate area as described in Resolution #93-714 and Resolution #97-116 which has since been amended 11 times and remains in effect until December 31, 2010. The officers provide an important, visible and effective presence in and around the hospital and work to further the Sacramento Police Department's interests in providing for the public's safety and security.

Due to increases in various types of crimes and nuisance-related issues, Methodist Hospital of Sacramento (MHS) has expressed an interest to work in partnership with the Sacramento Police Department to implement a Neighborhood Policing Program.

The primary duties of the assigned Police Officers would include the following:

- Provide problem oriented police services to MHS and the immediate area.
- Provide community policing services to MHS and the immediate area.
- Address police-related MHS issues using the problem solving philosophy.
- Provide ongoing Crime Prevention Through Environmental Design (CPTED) reviews.
- Provide law enforcement safety associated training to staff as appropriate.
- Police and patrol the campus and immediate area. Provide quarterly reviews to management.
- Provide investigative follow-up.
- Provide direction in the event of an emergency to other on-site security personnel.

Methodist Hospital of Sacramento is located in an area surrounded by residences and several businesses. Significant benefits are to be gained from having officers assigned to a neighborhood policing program in this area. The relationships developed between officers and staff, in addition to enhanced familiarity of the area and its issues allows the officers to provide more comprehensive police services. As public safety issues evolve, officers are well-positioned with their experience of the involved parties and area-specific issues to effectively solve problems. Furthermore, CPTED reviews provide ongoing comprehensive public safety planning which is critical to ever-changing environments such as the high-traffic Emergency Department and Family Birthing Center.
