- 2. The applicants' plans indicate that a 1,008 sq. ft. residence would be constructed on the rear half of the subject site. The proposed residence appears to be compatible with adjacent residential units and would comply with all height, setback, and coverage regulations of the City Zoning Ordinance.
- 3. The plans have been reviewed by the Traffic, Engineering, Building Inspections, Water and Fire Divisions. The following comment was received:

Water

- a. Existing residence only has 3/4" services. This would most likely be inadequate for two residences. Since city code allows only one service per residential lot, a new one-inch water service would most likely be required and the old services abandoned.

ENVIRONMENTAL DETERMINATION: The proposed special permit is exempt from environmental review pursuant to State CEQA Guidelines (Section 15305(a)).

STAFF RECOMMENDATION: It is recommended that the special permit be approved, subject to conditions and based on the following Findings of Fact:

Condition:

Applicant shall comply with all requirements of the Deep Lot Regulations (Section 9) of the zoning ordinance.

Findings of Fact:

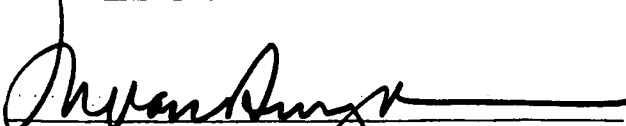

- 1. The proposed project is based upon sound principles of land use in that,
 - a. Adequate space is available on the site to accommodate the type and density of the proposed project;
 - b. The project is compatible with surrounding land uses which consist of single-family residences.
- 2. The proposed project will not be detrimental to the public health, safety or welfare, nor result in creation of a nuisance in that, the the project shall comply with Building Code regulations which stipulate construction standards, and adequate on-site parking will be provided.
- 3. The proposed project is consistent with the objectives of the General and Community Plan in that,
 - a. It provides a safe, stable and attractive residential areas in which to live.
