Re:

Woodside Homes  
Plan 4010

Dear Sir or Madam:

In order to reduce the chances of ceiling cracking that may occur at the clear span trusses over the master bedroom and the family room, and interior bearing has been added.

The reactions of the trusses and the headers on this interior bearing line are well within the limits of the mat slab calculations already provided. Therefore, no modification to the foundation plan is necessary.

If you have any questions, please feel free to call.

Sincerely,

Richard M. Robertson, P.E.
